I am an Intelligent Systems Engineering student at Indiana University in Bloomington. Skilled in machine learning and software development with Python (Pandas, Scikit-learn, TensorFlow), C, HTML, CSS. Co-owner of a manual labor app. Seeking machine learning or software engineering role.

EXPERIENCE

CO-OWNER AND PROJECT MANAGER

Joes Odd Jobs | Bergen County, NJ

2024 – PRESENT

Collaborated with a team of 300 workers to enhance customer satisfaction and serving 300 clients annually through a website and mobile app, generating an average monthly revenue of \$2,000. Developed business strategy, supervised team hiring and training, and established client relationship protocols that drove customer satisfaction.

BCG GENAI JOB SIMULATION ON FORAGE

December 2024

- Completed a job simulation involving AI-powered financial chatbot development for BCG's GenAI Consulting team.
- Gained experience in Python programming, including the use of libraries such as pandas for data manipulation.
- Integrated and interpreted complex financial data from 10-K and 10-Q reports, employing rule-based logic to create a chatbot that provides user-friendly financial insights and analysis.

ENGR E221: INTELLIGENT SYSTEMS II

Indiana University | Bloomington, IN

Implemented machine learning algorithms using advanced Python libraries including Pandas, Scikit-learn, and TensorFlow. Developed end-to-end ML solutions incorporating data cleaning, model selection, and performance optimization. Then launched the model in a virtual machine as a working web app.

EDUCATION

BACHELOR OF SCIENCE IN INTELLIGENT SYSTEMS ENGINEERING

Indiana University Bloomington

MAY 2027

- Member of Pi Kappa Phi fraternity on campus
 - Relevant coursework: Software Systems Engineering, Computer systems, Professionalization & Ethics, Intelligent Systems I
 - GPA 3.0/4.0
-

SKILLS

- Python
 - Pandas
 - Scikit-learn
 - HTML and CSS
 - Slack
 - Data analysis and modeling
 - Project management
 - Client Communication
-
